

Waste Management and Waste to Energy (WtE) Plant Visit Tour

General Information

This event takes you on a tour to learn about the municipal solid waste management and a guided tour through the Waste to Energy plant in the 11th district of Vienna.

Agenda

Date: 31.10.2023

Time: 14:00

Meeting Point: Johann-Petrak-Gasse 7, 1110 Vienna

- *Overview Presentation on Municipal Solid Waste Management and Q&A* | 14:00 – 15:00 CEST
- *Visit of the WtE-Plant* | 15:00 – 16:00 CEST

Background

The Pfaffenau waste incineration plant in Simmering (11th district) was opened in September 2008. Since then, it has converted 250,000 tonnes of mixed waste (residual and bulky waste) into clean energy. → this is wrong, it needs to be 250.000 tons per year. The plant gets 200 deliveries of residual and bulky waste for thermal treatment daily. It consists of a grate stoker incinerator with multi-stage flue gas cleaning as well as on sight wastewater treatment and an extraction back-pressure turbine for power and heat generation, connected to the district heating network of the City of Vienna.

IVECF YOUTH SOLUTIONS DAYS

Program Details

Before the tour, you will have the possibility to attend a presentation on municipal solid waste management in Vienna, where you also have the possibility to ask questions. Then you will have a guided tour through the WtE-Plant for a deeper insight on the technical functionality of the plant.
